SATHISH R
DATA ANALYST

LinkedIn | 6369440965 | sathishramesh383@gmail.com | GitHub | Chennai

SUMMARY

Results-driven **Data Analyst** with a passion for leveraging **data science, analytics, and AI** to drive business insights and decision-making. Proficient in **Python, SQL, and Power BI** for data analysis and visualization, with hands-on expertise in **machine learning, predictive modeling, and NLP** using **TensorFlow and Scikit-Learn**. Skilled in working with **big data technologies** such as **Apache Spark, Hadoop, and Snowflake**, along with cloud platforms like **AWS and Azure**, to build scalable, data-driven solutions. Adept at transforming complex datasets into **actionable insights**, optimizing processes, and driving innovation. Seeking opportunities to collaborate on **high-impact projects** and contribute to cutting-edge analytics solutions in dynamic, fast-paced environments.

EDUCATION

Bachelor of Engineering - Computer Science Engineering | CGPA: 7.67 **10/2021 - 05/2025**

- **IFET College of Engineering |** Villupuram, Tamil Nadu

SKILLS

- **Programming**: Python, SQL, Java, C.
- **Tool Proficiency:** Azure, Excel, Power BI, PyCharm, Visual Studio, Jupyter Notebook, PowerPoint, Git.
- **Soft Skills:** Communication, Critical Thinking, Management & Research, Adaptability, Leadership, Teamwork.

WORK EXPERIENCE

Data Analyst Intern **CognoRise Info Tech** **11/2024 - 01/2025**

- Used **Power BI** to analyze the nutritional content of **80 cereal brands**, identifying that **25%** exceeded recommended sugar levels.
- Examined **unemployment rates** across **28 states**, highlighting areas where **rates surged up to 12%**.
- Conducted **salary analysis** using **Python**, identifying **up to 20% wage variations** based on experience, company size, and location.

PROJECTS

1.Unleashing Growth Potential Business with Advanced Analytics and Predictive Modeling Link **11/2024 - 02/2025**

- Built an **AI-driven business intelligence platform** using **Python, Django, and Machine Learning** to enhance decision-making.
- Developed **predictive models** to **forecast market trends** and **optimize business operations**.
- Designed an **interactive dashboard** using **Django and Python-based visualizations** for real-time insights.

2.Sales Forecast Dashboard - Power BI Link **08/2024 - 08/2024**

- Created an **interactive Power BI dashboard** to analyze **sales trends**, forecast revenue, and track **key business metrics**.
- Integrated **real-time data and DAX calculations** to improve decision-making.

3.Multi-Disease Prediction Using Machine Learning Link **05/2024 - 06/2024**

- Built a **web-based system** using **Stream lit and Machine Learning** to predict **Diabetes, Heart Disease, and Breast Cancer**.
- Implemented **Logistic Regression, Random Forest, and SVM models** for **accurate disease Classification.**

CERTIFICATIONS

- PCAP-Programming Essentials in Python |**Cisco**
- Data Analysis with Python |**IBM**
- Databases and SQL for Data Science with Python | **IBM**
- Data Analytics and Visualization | **Tata and Forage**
- Introduction to Generative Ai | **Coursera**

ACHIEVEMENTS

- Presented **"Mouse Cursor Movement Using Eye Tracking and AI Virtual"** at **TechShowcase 2K24**, hosted by **IFET | 2024**
- Showcased an innovative project at **CEMP 2022 – Basic Science Project Expo**, earning recognition for creativity and innovation.
- **Cricket Team Champion & Captain** – Led the team to victory in the **Interschool Cricket Championship | 2020**.
- **School People Leader (SPL)** – Led strategic initiatives that contributed to securing the **Best School Award | 2018**.
